EDUCATION

BSc Mathematics, Northfield University 2021 – 2024

EXPERIENCE

Data Analyst, Example Ltd Jun 2024 – Present

- Built a churn model that cut customer losses by 12 per cent across two regions.
- Automated weekly reporting for five teams, saving six hours of manual work a week.

- Presented monthly findings to the operations director and two regional managers.
- Trained three new analysts on the reporting pack and the data warehouse.

Research Intern, Fenwick Systems September 2023 to December 2023

- Analysed sales data for 40 stores and presented findings to three regional managers.
- Wrote Python scripts that cleaned 20,000 records a day with no manual checks.

SKILLS

Python, SQL, Excel, Tableau, Git
